You Can Really Do It Yourself:

Simple Household Maintenance Solutions That Save Money and Increase Safety in Group Home and Home Settings

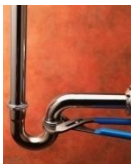

What you will learn:

- Minimize costly errors
- Reduce costs to your company
- Decrease the need for outside service repair calls
- Easy do it yourself projects
- How a few minutes now can save hours and dollars later
- Improve safety and security

This class will show you how to deal with those maintenance projects that you have needed help with in the past. Hands on instruction. New skills that you will be able to use immediately.

A manual will be given to each attendee that can be individualized for your needs.

About the Presenters:
